SPRINGS UP IN A NIGHT.

LURID GROWTH OF A TOWN IN THE WILD AND WOOLEY WEST.

THE PLACE HAS POPULATION OF 10,000

A Camp of Indians of 1,000 on Outside of Town—Gamblers Striking it Rich—Water Sells High.

Fort Sill, O. T., Aug. 2.—A town of 10,000 people, to be known as Lawton, has grown up just outside of the Fort limits, almost within a night.

Following the close of the lottery, at El Reno, thousands of home seekers, who drew blanks, started for the three points picked out by the government for town sites in the new country, namely, Anadarko, Aobart and Lawton. A majority of the people favored Lawton, which is twenty-five miles inland, and tonight thousands are camped in and about the proposed town site awaiting the sale of lots on Aug. 6th.

Already Lawton has 400 temporay business houses including a grocery firm and a newspaper, and three streets have been laid out. A national bank has been projected. Every form of gambling known on the frontier is being run wide open, side by side with fake shows of various descriptions. To add to the picturesqueness of the scene a thus and Comanche Indians have pitched their tents nearby.

M. C. Rich Arrested For Impersonating a United States Officer.

Washington, August 1.—Chief Wilkie, of the Secret Service, has received word of the arrest of M. C. Rich at Troy, N. C., charged with impersonating a United States officer. On July 22nd, the postoffice at Nalle, N. C., was blown up and robbed. Previously the postmaster, who is a woman, had received an anonymous note telling her that the office would be blown up and cautioning her to keep away. Soon afterward, it is said, Rich appeared and insisted upon being informed of all the facts connected with the robbery, and representing himself as a United States detective. He was arrested by the United States Marshal and Secret Service Agent Wright and held to appear before the grand jury in the sum of $200.

A Forty Million Depot.

Chicago, Aug. 2.—Plans for a central railroad station here, estimated to cost forty million dollars are being prepared to besubmitted at a meeting of railway officials to be held August 15.

Eighteen of the 22 railroad companies with Chicago terminals have approved the scheme as drawn by Alderman Dixon and members of the council committee appointed to investigate the question of a single terminal, and believe the plan can be carried to a successful conclusion.

The Illinois Central, Northwestern, Pennsylvania and Great Western railroads are the only ones which have thus far not given their approval.

Baltimore Boy Touches Live Wire.

Atlantic City, N. J., Aug. 1.—George Ferguson, aged thirteen, of Baltimore, was instantly killed this afternoon by a live electric wire. In passing under a tree he hit an innocent-looking piece of wire hanging through the limbs. Instantly he gave a cry of pain and the wire curled itself around his body. A policeman had the boy quickly removed to a hospital, but death resulted soon afterward.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Cuba's Agricultural Resources.

The island of Cuba is a gigantic farm of 28,000,000 acres of marvelously fertile soil. Thirteen million acres remain as virgin forest. Her present population is a little above one and a half millions.

Were Cuba as densely populated as Massachusetts, her census would show 11,000,000 inhabitants. An equal density with that of England would give her upward of 22,000,000. He ability to support a population per square mile equivalent to that of England, so large a percentage of which is dependent upon manufacturing interests, is somewhat doubtful, from the fact that Cuba presents little or no possibility of ever becoming a manufacturing center, In a measure, the comparison with Massachusetts is also faulty, for the same reason. Yet, in the latter case, the vastly greater fertility of Cuban soil would offset the manufacturing feature, and there is little doubt that Cuba, along the line of her particular agricultural advantages, can provide a comfortable and reasonably profitable living for a population of 10,000,000 of moderately industrious citizens.—From "Cuba's Industrial Possibilities," by Albert G. Robinson, in the American Monthly Review of Reviews for August.

Old Gorgon Graham's Business Philosopy

Baron Munchausen was the first traveling man, and my drummers' expense accounts still show his influence.

Adam invented all the different ways in which a young man can make a fool of himself, and the college yell at the end of them is just a frill that doesn't change essentials.

Pay day is always a month off for the spendthrift, and he is never able to realize more than sixty cents on any dollar that comes to him. But a dollar is worth one hundred and six cents to a good business man, and he never spends the dollar.

If you gave some fellows a talent wrapped in a napkin to start with in business, they would swap the talent for a gold brick and lose the napkin; and there are others that you could start out with just a napkin who would set up with it in the dry-goods business in a small way and then coax the other fellow's talent into it.

I always lay it down as a safe proposition that the fellow who has to break open the baby's bank for carfare toward the last of the week isn't going to be any Russell Sage when it comes to trading with the old man's money.

The Voice as a Revealer of Character.

There is no greater revealer of character than the human voice. It is the first thing that strikes us in a stranger, or in a new acquaintance. If is has that spontaneous ring of truth that no training can impart we recognize its appeal for confidence. Some voices have the jar of falsehood, and are as full of warning as the hiss of a serpent. The unconscious natural voice is to be regarded as the index of character. To speak promptly and positively is generally to act promptly and positively; to speak politely is to act politely, and to speak gruffly and rudely is a good way to make rude action easy.—Amelia E. Barr, in The Ladies' Home Journal for August.

The Meaning of a "Lady."

The much abused word "Lady," is modified direct from the early Anglo-Saxon, and means "loaf giver;" for the highest ideal of woman in those days was to be a good manager of her household in every particular; bread was then the real staff of life. The Delineator for September devotes its illustrated cookery article to the subject of bread in its various forms and every "Lady" should study the article.

Half a Million For Lord Roberts.

London, August 1.—The House of Lords today unanimously voted the grant of 100,000 pounds sterling for Lord Roberts recommended by King Edward, as a token of the nation's appreciation of the Field Marshal's services in South Africa.

BRYAN DEFENDS SCHLEY.

He Thinks Maclay Should be Turned Out of the Navy Yard.

Lincoln, Neb., Aug. 1.—In his comment on the naval controversy, Wm. J. Bryan takes the side of Rear Admiral Schley, giving him credit for the victory at Santiago and declaring it a "pith that there should be any centroversy that seeks to discredit, honorable and modest sea fighter, who successfully led the American forces in one of the greatest, if not the greatest, naval battle in the history of the world."

Mr. Bryan denounces the Maclay history of the struggle, and thinks it strange that a historian finds it necessary "to resort to the lowest form of abuse, in dealing with a historical character," and, adding, that "as a clerk in the navy yard, he should be displaced because of his outrageous assaults upon a man who has been the patient victim of the most remarkable series of attacks recorded in American history."

TOBACCO SALES AT WILSON.

One Hundred and Eighty Thousand Pounds Sold on the Two Opening days.

Wilson, N. C., Aug. 3.—The Wilson tobacco market opened on Thursday with good sales at all the houses. The amount of tobacco sold on the two opening days was about one hundred and eighty thousand pounds For the class of tobacco offered at this opening the prices were very good, being a dollar per hundred higher than for the same period last year. The tobacco offered showed more character than is usually the case with the August offerings. This is an indication for a good crop to follow. Most of the firms doing business here are strong on the market, and it is expected that the prices on tobacco will continue good.

Buller's Work in Africa.

Cape Town, Aug. 3.—The Cape Times, commenting on the announcement in the House of Commons that the government did not propose to recognize Gen. Sir Redvirs Buller's services in South Africa, voices the regret which is generally felt here over the statement that there is to be no substantial recognition of Gen. Buller's work. The Times insists that Gen. Buller performed some of the hardest, perhaps the very hardest, work of the campaign.

Three Children Killed by Lightning.

Ocean City, Md., Aug. 1.—Two of Joseph Henry's children were burned to death in his barn near here, which was struck by lightning on Tuesday night, and two others were found in a thicket near by—one, a boy of eight, dead, and the other, a girl of five, unconscious.

The storm was most severe on the Eastern Shore of the peninsula. A number of vessels, including the police boat Nellie Jackson, were sunk and several fishermen lost their lives.

FARMERS TO FORM A TRUST.

WASHBURNS PLAN TO UNITE COTTON PRODUCERS OF THE SOUTH.

The Only Way to Meet the Capitalistic Cotton and Wheat Trust is to Organize Bigger and Better Ones in Interest of Producer.

Boston, Mass., July 30.—George F. Washburn, of this city, president of the Commonwealth Club of Massachusetts, sailed for Europe today on a mission to inquire into the co-operative methods of various bodies in England, Belgium, and Switzerland, with a view to the formation of a fifty million dollar cotton combination in this country.

According to an interview, Mr. Washburn has worked out a plan to unite the cotton producers of the South into one great co-operative trust with headquarters at St Louis and central warehouses in Memphis. He said he had been selected for this mission because of the special study he had made of co-operation from a business man's standpoint; and that in his judgment the only way to meet the capitalistic cotton and wheat trust was to organize better and bigger ones in the interest of the producer. Mr. Washburn said that the application of the idea to the cotton industry was made because the planters being men of means, can unite in a co-operative business movement and effect a tremendous saving to themselves.

Mr. Washburn, who, in two national campaigns was a national executive committeeman of the People's party, was asked if his plan had any political significance and he said only in so far as it was successful and in that case it would have a far reaching effect along political lines in the West and South.

After His Money.

Charlotte, N. C., Aug. 3.—The man who was picked up three miles from here in a dying condition last evening, and who later died at the hospital, was today identified as Newton Lanier of York county, S. C.

Suspicion of foul play is very strong. Lanier was accompanied by a companion before leaving Charlotte, who is reported to have said that he was after Lanier's money.

Lanier was a member of the Queen City Guards, serving in the war with Spain, and was one of ten commended for good service when that company was mustered out.

BATTLE IN COURT.

SWIFT PUNISHMENT FOR A YOUNG WHITE MAN IN TENNESSEE.

HAD ASSAULTED A YOUNG WHITE LADY.

After a Fight With the Officers he Was Dragged From the Court House and Hanged Outside the Town—No Arrests Have Been Made.

Smithville, Tenn., Aug. 2.—The first lynching in the history of DeKalb county was recorded today when Charley Davis, the man who was charged with assaulting Miss Kate Hues last Sunday evening, was taken from the court house by a mob of about twenty-five people and hanged about a quarter of a mile from town.

The assault on Miss Hues was committed last Sunday evening and Davis' trial was being held today. When the witness began to give testimony the friends and relatives of the girl arose and made for the prisoner. For a time there were wild scenes and the people were much excited. The prisoner made an effort to escape by jumping from the two-story window of the court room. Several pistol shots were fired in the confusion but Davis was captured before he could jump.

The sheriff, one of his deputies and a constable, who were trying to prevent the lynching, together with the father of the defendant, were severely injured in a clash with the mob. The wounded officers are sheriff J. T. Odum, deputy Rob Odum and constable Maney Pass.

LONG WALK FOR A PENSION.

Veteran Coming Here From Boston Afoot to Make Personal Appeal to President.

Washington Post.

Philadelphia, Pa., Aug. 1.—Mr. and Mrs. Martin Hill, sore-footed and wearied by three weeks' tramp from Boston, arrived here today on their way to Washington, where the husband, who is a civil war veteran, will appeal to President McKinley for a pension.

The pilgrims arrived at the city hall this morning, having set out from Bristol, Pa., a short time after midnight. Hill said that he wished to see the mayor. When told that the latter was out of the city, he called upon Supt. of Police Quirk.

"I have given nineteen years—the best part of my life—to the service of my country," he said, "I was in the civil war from its outbreak until the surrender of Gen. Lee, and then I joined the regulars. I served for fifteen years under the great Indian fighting generals. I am now old, without a home or penny, and I think I am entitled to a pension.

"I have spent a good deal of money in employing attorneys to fight my case, but I am through with them, and several weeks ago I determined to make a personal appeal to President McKinley, and in order to do this I and my wife started from Boston on foot to Washington. It's a long trip, but we will get there finally."

When told that President McKinley would not be in Washington probably for some time, the old fighter said he could spend a few weeks with several of his old companions in arms who live in Fredericksburg, Va.

STEERS CAUSE PANIC IN JERSEY CITY.

Five Escaped and One Man Gored to Death Before They Were Killed.

Jersey City, Aug. 2.—Five big horned Texas steers escaped in this city this morning, and caused a panic among the streets and shops, doing considerable minor damage.

John Curran was fatally gored by one of them.

After much difficulty the citizens and police managed to kill four steers by shooting, and badly injured the other. They were being carried to a vessel, where they were to be shipped to Europe, when they escaped.

London Women Appear in Sandals.

Special to The Washington Post.

London, Aug. 1.—Extraordinary scenes were witnessed in the Strand to-day when several well-dressed women appeared wearing sandals. Crowds were attracted, and the women were followed everywhere they went. This warm weather fashion has been sprung suddenly, and it is believed to be the result of concerted action.

WHOLESALE LYNCHING.

THREE NEGROES SWUNG UP FOR THE MURDER OF A WHITE MAN IN MISS.

A RACE RIOT NEAR NEW ORLEANS.

White Men Flogged two Negroes, Shot Two Others and Would Have Lynched Another had the Sheriff not Appeared On the Scene.

New Orleans, August 1.—Three negroes, Belfield McCray, his mother, Betsy McCray, and his half-sister, Ida McCray, Betsy's daughter, were taken from the jail at Carrollton, Miss., today by a mob and promptly lynched. The negroes are three of thirteen suspected of being implicated in the murder of Mr. and Mrs. R. T. Talliafferro, a white couple living near McEnery, Tuesday night. The murder was thought to be due to the killing of a negro by Talliafferro in a personal difficulty.

The murder caused much excitement yesterday and especially when it was learned that the negroes in Carrollton were well armed, and as it was feared that they might resist arrest. A posse of ten white men started on the trail of a negro suspected of the murder. He was arrested and during the day twelve others were locked up, supposed to be implicated in the crime to a greater or less extent. Among those arrested were John Taylor, Belfield McCray, Bill Davis, Betsy McCray and Ida McCray. There was a disposition to lynch the negroes at once, but a mass meeting was held in Carrollton in front of the court house and jail in which the negroes were confined, Judge W. E. Stevens and District Attorney W. H. Hill made such a strong appeal against lynch law, the judge promising to call the court in session at once to try the cases, that the prisoners were not molested.

The advocates of a more violent course however, could not be held in restraint. Judge Stevens and District Attorney Hill began taking testimony of witnesses this afternoon, but this only inflamed the crowd as the testimony pointed strongly to the McCrays as the murderers. They broke into the jail at 5:30 p. m., and three negroes—one man and two women—were taken out, hanged and their bodies riddled with bullets. The mob announced its purpose of lynching the ten negro prisoners.

Governor Longino had been warned of the danger, and left at once, going on a fast train to Winona and then on a switch engine to Carrollton; but the negroes had been lynched before the Governor's arrival.

New Orleans, Aug. 3—At Joe Jefferson's Island, beria parish, a mob of white men flogged two negroes, shot two others, one in the neck, the other in the right shoulder, and were about to lynch the negro wounded in the shoulder when Sheriff Henderson arrived on the scene and unassisted prevented the lynching.

The trouble originated last Wednesday in a row between whites and blacks led by Tom Brown at Delcambrie's bridge. A party of whites started last night to whip Brown. As they approached Brown opened fire on them and fled to the east of his house. The house was riddled with bullets and Brown was finally driven out with his three nephews, two of the party being badly wounded. Two of the nephews were whipped and the mob had tied a rope around Brown's neck and was hauling him up to a tree when Sheriff Henderson, who had been notified of what was going on, appeared. Most of the mob abandoned the lynching, but some persisted. The sheriff threatened to arrest them and take them to jail and they left. The sheriff knows the would-be lynchers and will try to have them arrested.

There was no lynching in Carroll county today although the mob of lynchers, about 100 strong, visited the Talliaferro neighborhood and searched high and low for several negroes whom they have threatened to lynch if they catch them. They are Sallie Layton, daughter of Betsy McCray, who was lynched, and a sister of the other two dead negroes, Henry Layton, her husband, and Henry Layton, Jr., her son. These negroes, however, left Carroll county early thsi morning and cannot be found.

Once Was Enough.

High Point Enterprise.

A man at Asheboro court had a horse that was so sway-backed that he charged 5 cents to show it. Its backbone went straight down from the hips 14 inches. The horse was apparently sound was worked regularly on the farm. It was a cheap show, because those who saw it never wanted to see it again.

Married the Seventh Time.

An exchange says: "Guilford county has a citizen who is proud of the fact that he has been married six times and is the father of fifty-eight children. In the lot are four pairs of twins and one set of triplets. One wife was the mother of twenty-one of the children. The man is 58 years old and married his seventh wife last week."

AN EXCURSIONIST TO CHARLOTTE.

She Expected to See the Ocean and the Battle-Ships and Was Disappointed in Her Visit.

Mars Hill Correspondence Thomasville News.

Mary Sweet is in reasonable health again after her exciting trip to the city of Charlotte. Sweet had been planning a trip to some sea port town for the last ten years and when she heard of the excursion from High Point to Charlotte she decided to see old ocean at that point and dip in the surf. Imagination got away with Sweet's better judgment at China Grove when she pulled the bell cord to stop the train, declaring that town was Charlotte, and only by hard work of friends she was prevented from jumping off the train, because, for political reasons, she did not want to be carried into South Carolina. On her arrival in Charlotte she inquired for the boat landing. She wanted to see Schley's big gun-boat that walloped the Spanish fleet, and when told that Charlotte was an inland city, without wharves and battleships, she declared it was some other town and not Charlotte. When shown the city hall she declared she was in Washington and that it was the United States capitol. Her greatest excitement was caused by visiting the city cemetery, where she expected to find about two acres set apart for the "loved ones gone before," and to her amazement found about 40 acres. She thought so many people had never lived in the world. The big excitement on the return trip was when she saw the Yadkin river which she failed to see that morning. She declared the river to be the ocean, that Charlotte was somewhere in that vicinity, and that she had spent the day in Havana instead of Charlotte.

She returned home greatly fatigued and swearing vengeance against the railroad.

A 5-Year-Old Boy Who Plays With a 50-Pound Weight.

Charlotte Observer.

Tax Collector W. N. Peoples is prepared to make affidavit to the effect that the 21-year-old son and oldest child of Mr. J. Walter Potts, of Steele Creek, this county, stands six feet, seven inches, high and is strong in proportion to his size. And Mr. Potts' youngest son, who is barely five years old, is a prodigy of strength. Since he first gazed upon the world this young gentleman has been an athlete, and now, in the pride of his five years, he lifts a 50-pound weight in either hand—holds it out on the muscle.

"Why Mr. Peoples! can these things be?" asked the reporter.

"They can surely be—and are," ejaculated Mr. Peoples.

KILLED IN COLD BLOOD.

BOERS MURDER NATIVES IN EMPLOY OF THE BRITISH.

Native Scouts Who had Surrendered Were Shot After Being Made to Throw up Their Hands.

London, Aug. 1.—A dispatch from Lord Kitchener, dated from Pretoria today, says:

"French reports that he has received a letter from Kritzinger, a Boer commandant, announcing the intention to shoot all natives in British employ, whether armed or unarmed. Many cases of cold-blooded murder of natives in Cape Colony have recently occurred."

Another dispatch from Lord Kitchener from Pretoria, dated today, says:

"On July 28 an officer's patrol of twenty yeomanry and some native scouts followed two carts and a few Boers fifteen miles from the railway at Doorn river, Orange River Colony, where they were cut off by 200 Boers. After defending themselves in a small building, they surrendered. Three yeomen were wounded. After the surrender the Boers made the native scouts throw their hands up and shot them in cold blood. They afterward shot a wounded yeoman. The remainder were released. The Boers gave as a reason for shooting the yeoman that they thought he was a Cape "boy," Evidence on oath has been taken of the murders."

MOB LYNCHES A NEGRO.

He had Murdered a White Man in Alabama.

Birmingham, Aug. 2.—William Vann, while making through the country to his old home in Anniston with his wife and two children was set upon by Charley Read, a negro, near Cedar Grove, in St Clair county, 20 miles east of here last night. Vann died from injuries inflicted by the negro.

Justice Purcival held an inquest near the spot where the killing occurred and Read was held for the crime. While the negro was being given a trial this afternoon in the woods a mob of citizens took from two guards, carried him to a grove back of the place where he worked and strung him to a tree. The negro was strangled to death. A false report reached here that a race riot was on, and the sheriff and six deputies heavily armed hurried to the scene, but they were not needed.

CUBA'S COTTON GOODS TRADE.

The United States Must Make Goods Suitable for That Market, or Lag Behind.

Washington, Aug. 1.—A comparative statement of the imports of cotton good into Cuba during the calendar years of 1899 and 1900, has been prepared for publication in the division of insular affairs of the War Department. The statement shows that cotton goods to the value of $6,079,757 were imported during 1900, as against $6,225,057 during 1899.

The statement shows that the United Kingdom sent to Cuba in 1900, $2,965,307 worth of cotton goods as against $2,192,025 for 1899, an increase in favor of 1900 of $773,282. In 1899 Cuba took from the United States $1,837,741 worth, while in 1900 she took only $420,142 worth, a decrease of $917,599. The comparison for other countries presents some interesting features. In 1899 Germany's cotton trade was $142,515 and in 1900 $341,753; France $403,490 in 1899, and $651,753 in 1900; Spain's $2,126,712 in 1899 and $1,605,745 in 1900.

The statement says: "The unfavorable comparison in the United States trade for the years mentioned is accounted for in a great measure by the conditions prevailing during the 1899 period. The Cuban people, through long use, have come to prefer goods of European make. The close proximity of this country does not effect the situation and it is reasonable to expect that until the United States manufacturers follow the methods of other countries in making goods expressly for the Cuban market there will be no decided change in her trade relations with the United States.

Quartermaster's Clerk Robs a Safe.

Seattle, Wash., Aug., 2.—Word was received from Victoria of the allegd defalcation of Quartermasters Clerk John McCaull, and and his disappearance from the United States transport Egbert, on which he was assigned to duty. The Egbert sailed from Seattle for Alaska, July 31. In the hurry of departure McCaull was not missed. When it was found that he was not on board, Capt. G. H. Penrose, the quartermaster in command of the Egbert, immediately made an investigation, and as he could not open the safe he had it blown open. He found that all of the bills and most of the gold, except a few stray pieces, were missing. The shortage is stated to be $5,642. There was $945 in silver in the safe. A certificate of deposit on a Seattle bank for $4062 to the credit of Capt. P. H. McCaull, was found in a sealed envelope.

A DISTURBANCE IN THE HOUSE.

The Speaker Expels Two Members Who Became Disorderly.

London, July 30.—There was wild uproar in the House of Commons between 1 and 2 o'clock this morning, at the conclusion of the debate on the taxation of agricultural property. The Conservatives interrupted Mr. Walton, Liberal, with cries of "Divide!" William Redmond, on a point of order, called the attention of the Speaker to the interruption, but the Speaker ruled that the point was not well taken.

Mr. Walton resumed, but quite inaudibly, owing to the persistent cries of "Divide!"

Mr. Redmond shouted, "Police! Police!"

The Speaker said this expression was disorderly.

Mr. Redmond: "Why don't you keep order?"

The Speaker directed him to leave the House, and named him.

Mr. Balfour, the government leader, moved Mr Redmond's suspension, and this was carried by a vote of 303 to 71.

Patrick O'Brien persisted in the same point of order and was in turn named and suspended. The bill was adopted.

A TRAGEDY AT SHELBY.

CHIEF OF POLICE KILLED WHILE RAIDING A GAMBLING HOUSE.

MAYOR OFFERS A REWARD OF $200.

Four Blood Hounds and Over one Thousand People on the Negro's Trail—Will be Lynched if Caught.

Shelby, Aug. 4.—R. S. Jones, chief of police and tax collector, of Shelby, accompanied by Mr. S. M. Ford, night watchman, raided, this morning at 3 o'clock, a house near th South Carolina and Georgia Extension Railroad, where a crowd of negroes were gambling. One window was open where Mr. Ford stationed himself. Officer Jones opened the door, when one of the negroes, James Lowry, commenced to fire upon the chief of police and emptied two chambers of his pistol, both taking effect near the heart and stomach. Officer Jones had a tussle with the negro, after being shot, when he broke loose and escaped from the house. The chief of police shot three times at him, but to no effect, then sank and died within twenty minutes after receiving the shots.

The blood hounds owned by the deceased were at once put on the negro's trail, but the air was so dry that they could not trail him. The sheriff with a posse of seventy-five men, armed with guns and pistols, are scouring the country, and if caught, he will hardly be brought to jail.

Our citizens are very much wrought up over this dastardly deed. The negro came from South Carolina and has been here about a year. At the time of this deed he was in the employ of the South Carolina & Georgia Extension Railroad as a helper at the freight depot. The chief of police was a native of this town, and aged about 40 years. * * He leaves a wife and daughter, who are almost prostrated by grief.

Mayor Jennings has issued the following circular:

$200 REWARD.

The town of Shelby, N. C., offers two hundred dollars reward for the capture of Jim Lowry, colored, who murdered Chief of Police R. S. Jones, of Shelby, N. C., at 1:30 o'clock Sunday morning, August 4, 1901.

Lowry is about 25 years old, about five feet and eleven inches in height, slim, weight 145 pounds, a rather light mulatto, with his right eye-tooth rotted out and a niche broken out between his front teeth, one a little dark. A small brown spot on one side of face. Has prominent cheek bones and rather slim chin. W. H. JENNINGS, Mayor.

THEIR CIGARS SEIZED.

Passengers on a Steamer from Ponce, Fall Into Hands of Revenue Officers.

New York, July 28.—The steamship Ponce, from San Juan, P. R., July 23, docked in Brooklyn this afternoon. As she steamed up the bay the customs tug came alongside and two officers boarded the Ponce and took the passengers' declarations. As soon as the Ponce docked, custom house inspectors examined the baggage of the passengers, eighty in number. All cigars and cigarettes were seized and the owners were told to "come back to-morrow for them."

Among the passengers was J. R. Garrison, auditor of Porto Rico. He informed the inspectors that according to the President's proclamation, free trade now exists between the United States and Porto Rico. The inspectors claimed that they had no official information to that effect and Mr. Garrison complied with the order to dump the contents of his dozen trunks on the pier. The baggage of all the passengers was similarly inspected. After this general overhauling of baggage, a telephone message was received to seize only cigars in lots of 400. Passengers who did not have that quantity were let out. One, however, who had 450 cigars, was required to turn them over and told to come around Monday and pay for the internal revenue stamps. The collectors claim, while they know free trade exists between this country and Porto Rico, they do not know it officially, and that it will be several days before the new order can be put in effect.

The building will be of pressed brick, one story high, with a dome, and will cost about twenty thousand dollars. Nine firms of architects presented plans.

NEGRO DISFRANCHISEMENT AND SOUTHERN REPRESENTATION.

The Chicago Chronicle, a democratic paper, referring to the recent action of the Alabama Constitutional Convention in voting to adopt the "grandfather clause" as a means of restricting the right of suffrage, says:

"Perhaps when all of the states in which the black vote is a troublesome factor have amended their constitutions in this manner they will find themselves face to face with a congress which will have the honesty and the courage to enforce the 14th amendment, cutting down their representation in the House, and thus reducing their power in the electoral college.

It is possible now, with Mr. McKinley managing affairs under laws higher than the constitution, to do many things with impunity which a stronger and better man in the White House may deem it is duty to correct. The grandfather states should keep a close watch for this man. He will arrive in due time."

There is no mistaking the fact that there is a strong sentiment in certain parts of the Union in favor of reducing the representation of the Southern states in Congress on account of the disqualification of the negro voter.

The Republican State Convention of Ohio has recently expressed itself to this effect in no uncertain terms and from other states similar expressions are heard. It seems probable that before very long this agitation will result in a well directed effort being made to decrease Southern representation; in fact, it is inevitable that such an effort should be made. When it does come the conflict will be very bitter and will not serve to increase the spirit of friendship between the North and the South.

It has come to be widely believed that the enactment of the fourteeth and fifteenth amendments to the Constitution of the United States was a blunder, an exemplification of the old saying, "Act in haste, repent at leisure." But we pass that over. The fact is that these amendments stand today as the highest law of the land, and it is further a fact that the expedients adopted by various states of the South to eliminate the black vote are in direct conflict with these amendments. Such being the case it is necessarry to look the matter in the face. It is idle to say that the Southern states know best what is to their advantage, and that our Northern brethren will not dare to interfere. States are as jealous of their power as are individuals, and they are no less quick to take advantage of whatever may be to their interest politically as well as commerically. If the representation of the Southern states was reduced in proportion to the number of negroes disqualified—and such reduction is provided for by the 14th amendment when the right to vote is abridged on any ground except participation in rebellion or other crime—the other states of the Union would hold larger power in the national councils and in the electoral college. This fact is not to overlooked in considering the probability of the action referred to being taken

It seems, therefore, that the race question is likely to become National instead of Southern. If this nationalization of a more or less sectional question could result in a movement looking to the repeal of the 14 and 15th amendments a very wise purpose might be served; but if it shall result in depriving the Southern State of the proportion of representation they now enjoy and thus engender ill feeling between two sections of our country then, in truth, will the grandfather clauses have proven a curse to the people of the South and a source of discord and strife instead of being the conservator of white rule and peace.

THE LAST OF THE BOERS.

The world has seldom seen such indomitable courage and perseverence as has been exhibited by the Boers in South Africa. The two infant republics bid fair to fight to the last ditch. President Kruger has advised his countrymen to fight on, and fight on they will if it costs the last drop of Boer blood. But in the face of the tremendous odds against them and the resources and power of their adversary it is only too certain that they can never succeed in reaching the goal toward which they are making such a marvellous fight. Their forces are reduced to scattered bands of guerillas, thousands of their brothers have been slain and thousands more cast in British dungeons. Their farms which were well cultivated and fruitful, have been burned, their homes destroyed, and a country once a garden spot has been made a barren and desolate waste. Under the inhuman warfare of the British General Kitchener, who seems to be engaged in an endeavor to rival the atrocities of the Spaniard Weyler, the Boer women and children have been herded in concentration camps where the unsanitary conditions and vile food are rapidly depleting their number.

But still the war goes on in all its horror of devestation, sickness and death, and no nation on earth seems willing to raise its voice in protestation. Great Britain is bent upon the destruction of the two South African Republics, and no nation—no, not even the great United States, the guardian of the liberties of man, dares interfere. At the present rate it cannot be long before the Boer race is extinguished. Then the war will end and then perhaps will come upon the British nation a sense of its iniquity and shame. When that time comes will not the United States also have cause for shame?

In an address delivered in Wisconsin a few days ago Senator Tillman, of South Carolina, made an appeal in justification of lynching. It is not at all strange that the distinguished Senator should take this stand, for he is one of the most conspicuous exponents of mob law, not only as a remedy for crime, but also as a preventive of fair elections.

As every one knows, the shotgun and the noose have frequently been resorted to in North Carolina. The shotgun and the redshirt also in recent years have figured very largely to create disorder and anarchy. The mob that murders one charged with crime is not very far removed from the mob that destroys the life of the ballot; indeed, the former is much preferable, for it usually means that some wretch has suffered the penalty of outraged justice, while "redshirtism" springs from a foul-begotten, cowardly desire to prevent a fair expression of the will of the people in order to protect iniquity and vice. Lynching and "redshirtism" are closely allied and both are calculated to do vast harm to the state, but in far-reaching effects of evil there need be no hesitancy in saying that "redshirtism" easily surpasses any other form of mob law.

Death From Bite of Pet Dog.

Macon, Ga., Aug. 4.—A special from Gainesville, Ga., says: "Mrs. Dick Chatham died at her home in this city this morning of hydrophobia. She was bitten by a mad dog several days ago, and the bite at first caused her no alarm. Yesterday, however, she became worse, and her sufferings were so intense she acted as if wholly mad. The poison had evidently got in its work, for she suffered intensely until death relieved her this morning.

Her daughter was bitten by the same pet pug at the same time, and to-day it is feared that she, too, will have hydrophobia. Mrs. Chatham was prominent here, and owned considerable property.

Big Strike in California.

San Francisco, Cal., July 30.—The labor trouble in this city reached a crisis today. Maritime traffic and labor along shore are nearly at a standstill and industries are almost totally paralyzed.

The order for a general walkout of the City Front Federation which comprises fourteen unions and organizations, with a full membership of about 15,000, was made effective this morning.

No Price Too Dear.

Paris, Au. 3.—In the course of an interview with Mr. Kruger, published in the Figaro today, the ex-president of the Transvaal said: "We have already once proposed peace directly to Great Britain and we will not renew the proposal. All we are willing to give for peace is money, if Great Britain asks it. No price is too dear to obtain independence and the right to live as a free nation."

Chair Factory at Thomasville Burned.

A special to Mondays Charlotte Observer from Thomasville says:

To day at 3 o'clock, Thomasville could boast of her twelve factories, but at 4 o'clock she had only eleven. The Lambeth Chair Factory, one of the largest and probably the best equipped one of the chair factories now running, was burned to the ground this afternoon, between 3 and 4 o'clock. The loss is between $6,000 and $10,000, one of the biggest ever in Thomasville.

Raised 4,310 Bushels of Wheat.

Winston Sentinel, 3d

Mr. N. G. Williams, Yadkin county's biggest farmer, was here today. He finished yesterday threshing his year's wheat crop and the yield aggregated 4,310 bushels. His best field of 14½ acres made 508 bushels, and average of 35 1-29 bushels per acre. The second best yield was on 36 acres, from which 906 bushels was threshed, an average of 25 1-6 bushels to the acre.

Traffic Across Isthmus Threatened.

Washington, Aug. 2.—A cablegram has been received at the State Department from the United States consul at Colon, stating that if the present revolutionary troubles in that section become more aggravated the traffic across the Isthmus will surely become interrupted. The United States government is bound by a treaty to keep this traffic open to the world. No request for a warship to be sent to the scene of the trouble has been made.

Gamblers Strike it Rich.

Lawton, O. T., Aug. 3—A petition has been telegraphed to Colonel Randelett, Indian agent at Anadarko signed by 500 persons, asking him to suppress gambling of all kinds that prevails here. It is asserted, however, that he has no authority to interfere, so long as the Indians are left alone. Hundreds of "Hold up" games are placed on every hand and the innocent are robbed right and left. The Oklahoma law prohibiting the sale of cigarettes or cigarette paper is enforced, but there is no law that can touch the gamblers.

Liquor dealers are flocking to town and declare they will open saloons in the new country on August 6th, when the auction sale of town lots is to be opened, notwithstanding they cannot by law begin such business without giving sixty days' published notice. The territory officials are preparing to make wholesale arrests. In the meantime, whiskey and beer are being shipped into the country on every train. Lawton continued to grow at a rapid rate here today. Much suffering has already resulted. There is little water to be had and it sells at 50 cents a barrel. Ice, which has to be brought twenty-five miles overland, is scarce, and sells at 3½ cents a pound.

Tragic Death of a Young Wife.

New York, Aug. 4.—Mrs. Lizzie Simmers, of this city, wife of a young piano tuner to whom she had been married three months, while curling her hair this evening accidentally set fire to a bottle of naptha which was standing on a table.

Her clothing was ignited and before the husband could extinguish the flames Mrs. Simmers, wreathed in fire, jumped from the fourth story of the house. She struck the sidewalk head first and died two hours later of the burns and the fall.

The Big Meeting Month.

August is the great "big meeting" month in the country. The farmers will soon have laid by their crops, and will then have leisure to gather at the churches and listen to the expounding of the Word by their faithful pastors. These "big meetings" play a very important part in the social, as well as the religious, life of the people of the country. After the wear and tear of making a crop nothing could be more refreshing than these annual gatherings of the farmers and their wives and children.—Ex.

Ship Building Plant in Alabama.

Mobile, Ala., Aug. 2.—Alabama Port, thirty miles south of Mobile, on the Gulf of Mexico, is to have a ship building plant to cost $4,000,000 and which will be capable of building six steam-ships at the same time. The work of construction will begin in November and will be rushed to completion. The plant when finished will employ 3,000 hands. This announcement was made last night by S. B. McComico, of New York, one of a party who spent the day investigating the advantages of Alabama Port.

Wrightsville, Ga., August 5.—Charlie Price and James Radney, who live five miles from town, became engaged in a difficulty in which Price was killed. Price and Radney are brothers-in-law. The difficulty arose over family troubles. Radney came to this place and gave himself up. He claims the killing was done in self-defense.

HE KEPT HIS LEG.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 14 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For Eruptions, Eczema, Internal Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. Will guarantee satisfaction or refund money. Only 50 cents

Killed by Poisoned Ice Cream.

Atlanta, Ga., Aug. 4.—A dispatch from Losburg, Ga., says ten persons were poisoned by ice cream last Thursday at the home of Mrs. W. R. Bunkley. W. R. Bunkley died today from the effects, and Mrs. Bunkley and daughter are critically ill, while the guests and the rest of the family are recovering.

Only a Mask.

Many are not being benefitted by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine wich, as we know, "builds up the whole system."

A HEALTHY WOMAN.

Mrs. Clara Makemer, of The Florence Crittenden Anchorage Mission, Chicago.

Mrs. Clara Makemer, formerly with the Christian Medical Hospital and Dispensary, of Chicago, and present housekeeper for the Florence Crittenden Anchorage Mission, of Chicago, writes the following letter from 302 Chestnut street, Chicago:

The Peruna Medicine Co., Columbus, O.:

Gentlemen—Peruna is the best tonic I have ever known for general debility—a sure cure for liver complaint, and a never-failing adjuster in cases of dyspepsia. *I have also used it in cases of female irregularities and weak nerves common to the sex, and have found it most satisfactory. For almost any internal trouble Peruna is an ideal medicine chest.*

Mrs. D. Finlay, Petoskey, Mich., writes: "I never was better in my life than I am now. Peruna has cured me. I was fifty-seven years old last Friday and don't feel as if I could be more than twenty. *I was sick for five long years. I doctored all the time. Nothing helped me permanently until I heard of Dr. Hartman and his medicine and he cured me.* I had been so sick, suffered almost death, vomiting three or four times daily, no strength, not able to walk, and now for one year and a half I have been a well woman. People are surprised to see me so well. I tell them that Dr. Hartman cured me with Peruna."

For all of that class of disorders known as female diseases, Peruna is without a rival, because it strikes at the source of these diseases. Peruna produces clean, healthy mucous membranes, without which no woman can be strong or beautiful.

From what could be learned he was in Eno river swimming, in company with several other companions, when the accident occurred.

Mr. Riggsbee leaves a father, brother and one sister. He was about 25 years of age.

Young Riggsbee, it is said was soon to be married to a young lady by the name of Miss Emma Taylor, and she is almost crazed with grief at his untimely death.

The California King Gold Mines Company owns 23 claims in Picacho Basin, four miles from the Colorado River in California, and 20 miles by direct road from Yuma, Ariz.

Development work has been in progress for the last six years, and more than 10,000 feet of shafts, drifts, levels and cuts have been completed and paid for by the owners.

Upwards of fifteen million tons of ore are now ready for the mill, all of which will be mined by open cuts at a nominal cost.

A contract has been entered into for the erection of a mill and cyanide plant capable of handling 1,000 tons of ore daily, which will be completed this year. The directors guarantee that this plant will be placed in operation, regardless of the amount of treasury stock subscribed.

The net profit after commencing operations will exceed $60,000 a month, and probably reach $100,000 a month, within a year. The ore in sight will supply such a plant for more than forty years.

The property is owned by the directors. There is no promotion stock or promotion money. No salaries to officers. Every dollar realized from the sale of stock goes into the treasury to pay for the plant. Not a share of stock has been offered for sale before.

Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Beigler and thousands of other women and really seek relief today? All druggists sell $1.00 bottles of Wine of Cardui.

100 Chicago Street, Fort Wayne, Ind., March 27, 1900.
Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Thedford's Black-Draught. And since I have started to use it I will not be without it in the house. It helped my sister in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicines, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

Disgraces the State,' Says the Governor

Jackson, Miss., Aug. 2.—Governor Longino has returned from Carrollton, where three negroes were lynched last night. The Governor says the State has been again disgraced by this affair, which is all the more horrible because the lynched negroes were accused not of the assassination of Taliaferro and his wife, but simply of complicity in the crime or of guilty knowledge of the fact.

Chronic Diseases

It is on this class of diseases that sufferers experiment, and not only the sufferers themselves but doctors as well. All sorts of drugs and patent medicines and "family remedies" are tried; medical "Institutes" and "Companies" are resorted to but the condition becomes worse rather than better.

It is the nature of the disease itself, together with all its complications, which must be studied before any system of treatment can be prescribed. It is an individual personal treatment which is needed in every chronic case, whether it be Loss of Manly Vigor, Varicocele, Stricture, Blood Poisoning, or any form of Genital or Urinary Complaint It is such treatment that Dr. Hathaway gives his patients, and such treatment only.

That his method is right has been proved by the uniformity and invariability of his cures for the past 21 years, a record which has placed him far in advance of all other specialists in the treatment of Chronic Diseases.

Call at his office or write him for free consultation and advice, for a copy of his new 64-page book, "Manliness, Vigor, Health," and self-examination symptom blank.

Swift Creek Notes.

Aug. 3rd 1901.—The board of road supervision met at Franklin precinct today. The most of the roads were reported in good condition, but remember boys, majority of this board are democrats and if you voted for McKinley or against the amendment they will get close behind you. We can beat them voting, but we can't help Simmons men from appointing.

The crops through this section are looking a little better, but we can't possibly make half a crop.

Mr. R. H. Utley of Middle Creek township, lost a fine horse last Tuesday, caused by over heat. Mr. Utley is one of the most careful men with stock that we have in our country. He was in Raleigh that day and could not attend to his horse on the farm.

A GIRL FOR TOWN MARSHALL

Miss Helen Beals, a Former Telephone Girl a Prominent City Official in Lawton.

Wichita, Kan., Aug. 5.—Miss Mattie Helen Beals, the Wichita telephone girl who drew second choice of farms in the new Kiowa and Comanche country, has accepted new honors. She will become city marshal of the new town of Lawton, to take the place of Bat Carr, the present officer. Mr. Carr was relieved of his gun because he wanted to start too many fights and run the town in a wide-open manner.

A delegation of citizens waited on Miss Beals this morning and tendered her the place. There is a good salary. As she has to remain on her farm fourteen months, she accepted the place after some hesitation. She hopes to tame the outlaws and bad men without having to shoot any, although she will go well armed at all times. She will suppress all gambling houses if possible.

Tomorrow the big sale of town lots commences, and it is probable that Miss Beals will assume her new position early Tuesday, the first official day of the opening.

Miss Beals and Bat Carr met this evening. Just to test her nerve he fired several shots. She returned the fire, the story goes, shot his hat off. After this little exchange of compliments the two shook hands and promised to be friends.

Sit up in bed.

When it becomes necessary to sit up in bed to get your breath; when the least exertion such as walking, sweeping, singing, talking or going up and down stairs, causes shortness of breath, fluttering or palpitation; then it is time to do something to brace up and strengthen your failing heart. Take Dr. Miles' Heart Cure. It is best of all.

"I could not rest at night and often had to sit up in bed to breathe. The least exertion would make my heart palpitate dreadfully. Our doctor prescribed Dr. Miles' Heart Cure and it completely restored me to health."

Raleigh Business Directory.

A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to building up a town than any other agency that can be employed. People go where there is business. Capital and labor go where there is an enterprising community. No power on earth is so strong to build up a town as a newspaper well patronized, and its power should be appreciated.—T. DeWitt Talmage.

SANTA FE'S WOMAN'S BOARD OF TRADE

NEW clubs have done such useful and progressive work as the woman's board of trade of Santa Fe. This club, organized at the time of the Columbian exposition, for the purpose of making an exhibit at the latter, took the name "Board of Trade," to donate its practical objects. After the exposition it turned its attention to city improvements. Santa Fe, like all cities, both in Old and New Mexico, has a plaza in the center of the town. The plaza at Santa Fe is a place of great historic interest, many of the salient events of the history of the territory having occurred there. On one side it is bounded by the governor's palace, a long, adobe building, which has been the seat of authority ever since New Mexico was a crown colony of Spain. With this interesting old building on one side, and the best shops and hotels of the city on the other three, the plaza should have been an ornament to the town. Instead, it was sunken and irregular in surface, covered with a rank growth of alfalfa, and surrounded by an old wooden fence. The woman's board of trade too vigorous possession of the plaza. They transformed the surface into a fine level lawn, replaced the old fence with an elegant stone coping, and erected a handsome drinking fountain. This was not only an achievement in itself, but it gave an impetus to like improvements throughout the city.

The board has also established a free library and reading room, which now contains several thousand good volumes. It has a visiting and relief committee, which looks after strangers and gives them a welcome; a boon in the city to which so many sick and unfortunate victims of tuberculosis bend their steps. It also has a committee on prevention of cruelty to animals. The board is recognized by taxpayers and city government as an active factor in the successful municipal government.

Notwithstanding its splendid achievements it has no command of public funds, but such is its standing in the community that it has never had any trouble in raising sufficient money for its work.—Sunny South.

A Maiden on Time.

Men claim that women are tardy—in fact, that they're never on time.
That among their thousand sweet virtues promptness you never will find.
But I know of a dear little woman, quite worthy of praises in rhyme
Who is pretty and gracious and charming, and always, yes, always on time.
She never is fretful and flurried, nor given to dumps nor to tears;
She's a beautiful Grecian maiden who has posed on my clock for years!
—Emma C. Dowd, in The Ladies' Home Journal for August

Bicycle Versus a Cow.

Tit Bits.

An Irish farmer went into an iron monger's shop to buy a scythe. After serving him the shopman asked him if he would buy a bicycle.

"What is that?" queried the Irishman.

"It's a machine to ride about the town on."

"And, shure, what might the price of it be?"

"Fifteen pounds."

"I'd rather see fifteen pounds in a cow."

"But what a fool you would look riding round the town on the back of a cow!"

"Shure, now," replied the Irishman, "not half such a fool as I'd look trying to milk a bicycle!"

Willie had swallowed a penny, and his mother was in a state of much alarm

"Helen," she called to her sister in the next room, "send for a doctor. Willie has swallowed a penny."

The terrified boy looked up imploringly.

"No, mamma," he interposed; "send for the minister."

"The minister!" exclaimed the mother.

"Yes, because papa says our minister can get money out of anybody."

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

Like Begets Like. **The Sin of the Parent.**

SSS cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

For I hardly needs to tell you how you often come ercross
A fifty-do lar saddle on a twenty-dollar hoss,
An', wokin' in de l w grounds, you di-kiver as you go,
Dat de fines' shuck may hide de meanest nubbin' in a row.

I think a man has got a mighty slender chance for Heben
Dat holds on to his piety but one day out ob seben;
Dat talks about the sinners wid a heap ob solemn chat,
An' nebber draps a nickel in de missionary hat;
Dat's foremost in meetin'-house for raisin' all the chunes,
But lays aside his 'ligion wid his Sunday pantaloons

I nebber judge o' people dat I meets a ong de way
By de places whar dey come frum an' de houses whar dey stay
For de bantam chicken's awful fond of roos'in' pretty high;
An' de turkey-buzzard sails above de eagle in de sky;
Dey ketches li tle minners in de middle ob the sea,
An' you finds de smalles' 'possum up de bigges' kind of tree.

"I Love You."

When the busy day is ended
And evening shadows fall—
When the constant stars are shing
And silence reigns o'er all.
How sweet are these words of greeting
From lips so fond and true;
How th y drive away our troubles—
The whispered—"I love you"

And we smile amid our labors
To hear those words of cheer;
Like a blessed benediction
They banish care and fear;
And it makes our earth heaven—
Though old, yet alw ys new;
That gracious, g-ntle greeting—
The whispered—"I love you."

Where a Man Comes High.

A grizzled farmer down in Mississippi went to a newspaper office to have a notice inserted about the death of a relative.

"What air your charges?" he asked of the manager.

"We charge two dollars an inch."

"Oh—h!" said the farmer, "I can't afford that. William, he was six feet and three inches."

Milwaukee Journal.

A Milwaukee minister has requested his congregation to lower his salary. As a rebuke for the entirely unusual and unnatural proposition his church gave him an advance, and it served him right.

Wigg: "She is very susceptible to flattery." Wagg: "I should say so. I once told her she was as sweet as honey, and, would you believe it, the very next day she had hives."—Philadelphia Record.

Lexington, Ky., Aug. 2.—George W. Ranck, one of the best known literary men of Kentucky, was struck and killed by a Louisville and Nashville train today.

Mercereau, superintendent of the Pere Marquette system, has announced that his company would in the near future install wireless telegraphy between Manitowac and Ludington, over 156 miles of open water Later on the Pere Marquette company expects to equip all of its steamers with the system. Warning to The Boers.

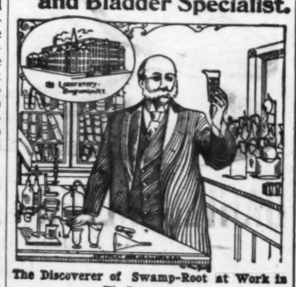
London, Aug. 2.—Colonial Secretary Chamberlain informed the House of Commons today that, owing to the Boers killing noncombants and natives the government had telegraphed to General Kitchener instructing him that any persons found guilty of this offense must suffer the death penalty. He added that General French had been ordered to communicate these instructions to Commandant Kritzinger and other Boer leaders. Mr. Chamberlain assured the House that General Kitchener would not return from South Africa until he (Kitchener) and the government were satisfied that it would be safe for him to do so.

The Eminent Kidney and Bladder Specialist.



The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.

The September Designer.

The Designer for Septembers abounds in attractive advance styles for autumn apparel and millinery, both of which are lucidly described and artistically displayed. Of especial interest to mothers should be the articles "Aprons for Our School Girls," and "Preparing a Child for Boarding School," the former prettily illustrated. The Kentucky love story "Faint Heart and Fair Lady," by Henry Cleveland Wood, is continued in this issue, and two short stories "Her Grandfather's Clock" and "A Bit of Finery," the latter a tale for girls, are also given. Amateur camera snappers should gladly avail themselves of the suggestions given in "Caricature Photography," for thereby they may employ their spare time pleasantly and with possible profit in a monetary sense. "A Colonial Minuet Drill" gives instruction for a particularly dainty little entertainment, suitable for raising money for church or society, and "Off for a Tramp," by H. L. Holcomb, will be welcomed by feminine lovers of fresh air and sunshine. Numerous designs for fancy work are supplied in this issue, and the latest in literature is discussed in "Notes of New Books." Under "Health and Beauty" are furnished reliable recipes for beautifying the hands and arms, while "The Ideal Bathroom" shows how many comforts in the watery line are possible for those who can afford them. "The Cultivation of the Voice" especially considers the elocutionist this month, and "Points on Drassmaking" treats of the finishing of the fashionable skirt. Selections for parlor or schoolroom recitation, Etiquette Hints, Nursery Lore, Household Advice, recipes for Pickling, Caning and Preserving, and "Among Ourselves," the latter a resume of current topics interesting to womeu, are also presented in this very entertaining number, the price of which is 10 cents.

Put His Stomach in Perfect Condition

Mr. William F. Hardy, Superintendent Prudential Insurance Co., Cor. Amber and Norris Sts., Philadelphia, Pa., writes:—"Permit me to thank you for the excellent remedy, Ripans Tabules. I have been suffering with constipation for about one year. I would get temporary relief, but it would return. I grew so bad about seven weeks ago that I suffered very much with my stomach. I used everything imaginable, but grew worse until I had a slight fever. A friend of mine who dined with me three weeks ago advised me to use Ripans Tabules. I bought a box and must confess that they put my stomach in a perfect condition and I feel better than I have for some time.

There is scarcely any condition of ill-health that is not benefited by the occasional use of a R.I.P.A.N.S Tabule, and the price, 10 for 5 cents, does not bar them from any home or justify any one in enduring ills that are easily cured. For sale by Druggists.

Now is the time to subscribe to the CAUCASIAN. Only $1.00 a year.

Reasons Why you Should Insure in the *The Manhattan Life*

Its business is confined strictly to the most healthy portions of the United States, thus its policyholders constitute what you might call a preferred class.

It is one of the strongest companies in the World, and its assets are big enough—$16,367,636.00—all gilt edged, and are invested entirely in America, thus receiving the constant care and attention of the officers of the company.

It is an American company, amenable only to our own laws and not subject to the dictation of various foreign governments.

It is not a racer for new business, the watch words of the company being, Strength, Solidity and Security.

Its policies are simple, clean, straightforward contracts.

Its management has been practically the same for a quarter of a century.

It has paid its policyholders since organizatiod over $45,000,000.00.

We judge a company as we do a man. What are its morals? When other companies deserted the Southern Policy-holder, and used both the money he had contributed towards their success, and their influenc to destroy him, the Manhattan stayed firm as a rock—"Justice" was their motto. See what a distinguished Statesman of Georgia says:

STATE OF GEORGIA,

Treasury Department.

Atlanta, Ga., May 12, 1891.

Why Mr. Hardeman had a policy in the MANHATTAN LIFE.

Maj. Jos. H. Morgan, Special Agt. Atlanta.

Dear Sir:—As agent of the Manhattan Life Insurance Company of New York, it affords me pleasure to say to you that my father was insured in your company, and by reason of the late war, he was unable to reach your company and pay his premiums as they fell due; and that after the cessation of hostilities, my father having died during the war, your company have paid to my mother the amount of his policy less the amount of premium unpaid. Yours Truly,

(Signed) R. U. HARDEMAN, State Treaturer.

And this was not an isolated case by no means.

So soon as the civil war was over the Manhattan announced that the company was ready to communicate with the old policyholders, inviting them to reinstate their policies, making one condition only, that the policyholders should be in good health.

Such an act of generosity was unthought of by any other company or corporation.

Knowing that their Southern policyholders were, most of them, men who had made every sacrific possible for the land that they loved, and that had been reduced from affluence to poverty, they offered, in lieu of ready money to accept a note covering the entire premium during the time that payments had lapsed. In addition to that they placed these policies on the same footing of other policies of the same date, in regard to dividends and and annuities.

The company went even further: In cases where the insurer was unable to comply with these very liberal terms, or did not care to renew the policy during these troublesome times, the Manhattan agreed to pay the purchase value of the policy as it stood on the date of the lapse from the non-payment of premiums

Although the Manhattan has made no boast of this act of generosity, which was not followed by other Northern Companies, "on the ground that the disloyalty of Southern policyholders vitiated their contracts," still it remains on record that the Manhattan was true and steadfast, honest and equitable, when all others forsook the old soldiers in the time of their direst necessity.
